# PUBLIC INTERNET ACCESS PROGRAM

The Public Internet Access Program (PIAP) is a new Victorian Government initiative assisting organizations to provide free or affordable public internet access.

Public Internet Access venues have been established:

- ◆ To increase the number of internet connections in public places in Victoria
- ◆ To boost internet skills and open up new opportunities for Victorians
- ◆ For those who can't afford computers and/or internet connection at home
- ◆ For Disadvantaged women and women from different cultural backgrounds

**Public Internet Access is now available at WHISE**

## Public Internet Access Program
