

Volunteers needed for two new programs

Women's Health in the South East (WHISE) is a non-for-profit women's health organisation. WHISE is running two programs 'Photography on the Move' and 'Friendly Faces' beginning in June, which we require volunteers for.

Photography on the Move requires volunteers who can commit to two hours per week, assisting people who have a disability to go on a group walk around local areas/parks to take photos of their surroundings. The program aims to provide participants with social interaction and mental stimulation.

Friendly Faces is a program aimed at providing one hour of social interaction per week for a resident of a nursing home. The hour visit will require the volunteer to walk with, talk to, read with or to, or play cards with a resident.

- Selection Criteria:
- Students studying health promotion or similar, or Community members who have the time and the generosity.
 - Have some experience in assisting people in aged care or people who have a disability.
 - Must have a police check.
 - Good communication skills are essential.
 - This is not necessary however, if you are able to speak a second language other than English that would be helpful.

Volunteers will need to be available on the 29th of May between 11am to 2pm for an information/training session.

If you are interested in becoming a volunteer for either 'Photography on the Move', or 'Friendly Faces', or both programs, please contact Robyn or Hayley at WHISE on:
